

A semantic search x Agentic ai tool that helps you search for hair inspiration and tutorials that cater for specific needs, i.e tender headed, under and hour, quick quick crotchety diy from text/ short input descriptions[ images for future integration]

Project Timeline/Sprints:

Day 1:

Dataset creation(35 entries so far)...manually created one as open sources like kaggle don't have what I wanted.

Environment and libraries installation

Imports made so far:

- Sentence transformer
- Pandas
- streamlit
